

**NTS Mission Critical Features Training Session Information**

**May 1-2, 2008**

**September 18-19, 2008**

Trident Micro Systems invites you to NTS Mission Critical Features Training at our headquarters in Arden, NC. NTS owners, system managers, technicians and PassPort licensees who meet all of the following qualifications are eligible for attendance:

- (1) Prior attendance at an NTS training class at Trident Micro Systems or Motorola
- (2) Hands-on experience with the NTS
- (3) Understanding of sub-audible signaling as utilized in the PassPort protocol
- (4) Knowledge of PassPort terminology, features and subscriber organization (i.e., Fleets, Primary TGs, Secondary TGs, MINs, etc.)
- (5) Basic knowledge of repeaters, subscriber radios and RF test equipment

This two-day training session will cover the utilization, configuration and optimization of the NTS optional features developed for the Mission Critical user. The class includes lab activities where students will gain practical, "hands-on" experience in programming and utilizing Mission Critical features in both the NTS controller and PassPort subscriber radios. Modules to be covered include:

- Backup Channels
- Priority Access
- Emergency Declaration
- Other Mission Critical Features & NTS Enhancements
